Mobile : +98-913-744-9377

## EDUCATION

---

- **Tarbiat Modares University**

*Master of Secure Computing*

*Current CGPA: 15.75/20 or 4/4*

Tehran, Iran

*Sep. 2019 – 2021*

- **Shahid Bahonar University**

*Bachelor of Science in IT Engineering*

*CGPA: 15.44/20 or 3.29/4 — Last 1 year GPA : 17.87/20 or 3.72/4*

Kerman, Iran

*Sep. 2015 – Jan. 2019*

## RESEARCH INTERESTS

---

- Threat Hunting
- Intrusion Detection
- Smart Contract Security
- IoT & IIoT Security
- Vulnerability Analysis
- Adversarial Attacks

## PUBLICATIONS

---

- Ghazaleh Shirvani, Saeid Ghasemshirazi, **Behzad Beigzadeh** "IoT-Shield: A Novel DDoS Detection Approach for IoT-Based Devices .", in **2021 11th Smart Grid Conference (SGC)** [IEEE]

## EXPERIENCE

---

- **Iran University of Science and Technology**

*Graduate Research Assistant*

Tehran, Iran

*Sep. 2020 - Present*

- **Research Assistant**

Electronic commerce research, with a focus on smart contract security.

- **Danesh Nasr Pouya**

*Software Engineer*

Kerman, Iran

*Jul. 2019 - Sep 2022*

- Responsible for developing and extending Restfull API using Django and System admin with 3+ years of experience in the cybersecurity industry.

- **Shahid Bahonar University**

*Undergraduate Research and Teaching Assistant*

Kerman, Iran

*Sep. 2018 - Jan 2019*

- **Teaching Assistant**

Secure Computer Systems, M.Sc. Course, Fall 2019.

Computer Network Security, B.Sc. Course, Fall 2019.

## HONORS

---

- Ranked 3<sup>rd</sup> in E-commerce field among all cohorts of 2020.
- Ranked 2<sup>nd</sup> in IT Engineering field among all cohorts of 2015.

## CERTIFICATES

---

- **Certified Network Security Specialist(CNSS)**, ICSI, International Cybersecurity Insititute.
- **Foundations of Operationalizing MITRE ATT&CK**, Basis Technology.
- **Splunk User Behavior Analytics**, Splunk.
- **Security in Google Cloud Platform**, Coursera, Google.
- **Machine Learning**, Coursera, University of Stanford.
- **Enterprice System Management and Security**, Coursera, University of Colorado.
- **Detecting and Mitigating Cyber Threats and Attacks**, Coursera, University of Colorado.
- **Software Security**, Coursera, University of Maryland.
- **Advanced Penetration Testing**, Cybrary

## SKILLS

---

- **Programming Languages:** Python, C++, C#, SQL, JavaScript, Dart, Solidity
- **Technologies:** Burp Suite, Wireshark, Tcpdump, Nmap, Metasploit, Aircrack-ng, Google Cloud Platform, Nessus, Splunk, Linux/UNIX, Git, Django, Acunetix, SIEM, Kali Linux, Volatility, Docker

## SELECTED PROJECTS

---

- **Phishing Detection Using Whitelist Approach**
  - Implemented a simple Restful API using Django for phishing detection. [[Github Link](#)]
- **Awesome Smart Contract Security**
  - A curated list of Smart Contract Security materials and resources For Researchers. [[Github Link](#)]
- **Movie Recommendation System Based On K-Nearest-Neighbors (KNN)**
  - Implemented a Movie Recommendation System Web Application based on KNN using Django. [[Github Link](#)]
- **Arduino Based Encryption and Decryption Module**
  - A simple Encryption and Decryption module was Designed and Implemented with Arduino using the AES algorithm. [[Github Link](#)]

## SELECTED COURSEWORK

---

### Graduate Courses

- Data Warehousing and Data Mining(18.68/20)
- Comprehensive e-business strategies and plans(19.5/20)
- Re-engineering business processes in e-commerce(19.75/20)
- E-commerce security (18/20)

### Undergraduate Courses

- Enterprise Application Integration(20/20)
- E-commerce (20/20)
- Internet Engineering(19.5/20)
- IT Project Management(18.75/20)

### Self-studied Courses

- Pentester Academy: Python for Pentesters
- Pentester Academy: Javascript for Pentesters
- SANS: SEC542 (Web Application Penetration Testing Training)

## LANGUAGES

---

- **Persian:** Native
- **English:** Proficient
  - TOEFL IBT: will be taken on Oct. 19<sup>th</sup>
